Birding Project

Hello Hello Patricia. How are you?

Thanks for your e-mail, I really appreciate your attention always for us. ;) :)

As you know, We are working with Fabian, Magnolia Rios (science's teacher - Waldorf school in Massachusetts) to participate in the Convention "What Works".

Here, trying to connect the birds project with Fabian, in the connection with the bilingual purpose: "English with birds". We are developing a proposal to the immersion of a second language (English) mainstreaming in training children to develop their communication skills in the context of our environmental project.

A big Hug!

Nury Penagos
